Honors & Awards

Google IT Automation with Python - Google Career Certificates
Nov 2022
This six-course certificate, developed by Google, is designed to provide
IT professionals with in-demand skills -- including Python, Git, and IT
automation -- that can help them advance their careers. The hands-on
curriculum is designed to teach learners how to write code in Python,
with a special focus on how this applies to automating tasks in the
world of IT support and systems administration. Those who received
this certificate passed all graded assessments with a score of 80% of
above. They should have a strong foundation in how to use Git and
GitHub, troubleshoot and debug complex problems, and apply
automation at scale by using configuration management and the
Cloud in order to prepare them for more advanced IT Support
Specialist or Junior Systems Administrator positions.

Google IT Support - Google Career Certificates
Mar 2022

Those who earn the Google IT Support Professional Certificate have completed five-courses, developed by Google, that include hands-on, practice-based assessments and are designed to prepare them for entry-level roles in IT support. They are competent in foundational skills, including troubleshooting and customer service, networking, operating systems, system administration, and security.
